#### SEASONABLE RECIPES.

Corn Drop Cakes .- Very nice ones are made by mixing corn meal with boiling new milk until you have a thick batter; put in the patent pans (if you have them) at once and bake for 20 or 30 minutes,

Cooking Eggs .- The fresher eggs are the more time will be required for boiling. To have them soft and tender drop them in the water at a boiling point and let them stand from 5 to 7 minutes, without boiling.

Strengthening Jelly .- Bolt in 2 quarts of water I ounce of rice, I ounce of sago and ounce of barley, until reduced onehalf. Strain into a mold; take a teacupful morning, noon and night. It can be sweetened and flavored to taste.

To Color Aniline Red .- Always set the dye with verdigris-as much as would form a large pea, to every gallon of water; first, dissolve in warm water and add to the dye, before putting in the goods. Woolen colored in this way, will never fade; and cotton but very little.

Brown Ben .- Peel, core and quarter, good tart apples. Half fill a pipkin or stone jar with them, and nearly cover the apples with water. Then fill up the jar with the crusts and crumbs of the rye and Indian loaf; cover close and stew gently until apples and crusts are all tender; then mix intimately and serve warm, as side

"Apple John."-Pare, quarter and core, mough apples to fill a 3 or 4 quart crock. Make a batter a little thicker than for pancakes; put a layer of apples on the bottom of the crock, then pour over some of the batter; then another layer of apples, then batter, and so on till all is used; then put a thick soda crust on the top, and bake three hours. To be eaten with a sweet sauce. Very nice.

milk, I cup of yeast, set in a warm place over night. In the morning add 1 pint of dry bread crumbs, \(\frac{1}{2}\) a cup of sugar, 2 or three eggs, a teaspoonful of soda, a little salt and corn meal enough to make a moderately stiff batter, and stir well. , Instead of baking, steam this loaf, having for the purpose a tin pudding form, or bucket, with a close fitting lid. Into this (well buttered) pour the batter in the morning. After standing an hour or two and when perfectly light, place the bucket in a pot of boiling water and steam it 11 or 2

#### An Impracticable Dead Man.

Over In Wilmington, the other day, a man named William D, Shuckers died. It seems that there was another man in the city bearing precisely the same name, and when the death was announced a good many of his friends thought he was dead, and they resolved to go to the funeral. On the day of the funeral the living Shuckers also thought he would go, partly for the purpose of ascertaining how it felt to participate in the obsequies of a man named Wm. D. Shuckers. He took up a position in the vestibule, and just as the mourners were about to come out, a friend of his, named Jones, saw him. The first impulse of Jones was to rush through the kitchen, and climb suddenly over the back fence; but he controlled himself, and after makes one look ten years younger than they are. Magpoking Shuckers in the ribs with his umbrella to determine positively that he was

not a ghost. Jones remarked: "Why, Shuckers, what on earth are you doing here? Why ain't you in your coffin ?

"Coffin!" exclaimed Shuckers, "what d' you mean? What do I want with a

"Mr. Shuckers, you know you are dead. Why, they got up all this gorgeous funeral for you, all these carriages and pallbearers and things, and the clergyman's just been paying you splendid compli-ments that any dead man might be proud

"But I tell you I'm not dead. I'm as much alive as you are,"

"There is no use of arguing the point, Shuckers; the occasion is too solemn for controversy. But if you have any consideration for the feelings of your bereaved family who are weeping like mad, upstairs, and for the undertaker who is waiting inside there with the screw-driver, you will go and get into your coffin and be-have. It's indecent to carry on so at your own funeral."

"Jones, my boy," said Shuckers, "you have mistaken-"

"No, I'm not mistaken. You're dead-technically dead, anyhow. It has been announced in all the papers, your relations have gone into mourning, the Board of Trade has passed resolutions of regret. the sepulcher has been dug, up there in the cemetery, and the undertaker has gone to considerable expense to inter you comfortably. Now, go and lie down, won't

"Hang the undertaker," said Shuckers. "No, I'll not go and lie down, I'll see

you in Kans is first." "Now, see here, Shuckers; I came here to attend your funeral, and I'm not going to be baffled by any unseemly conduct on the part of the corpse. On, you needn't look mad at me!—either you get back into that coffin so's the lid can be screwed on. and the procession can move off, or I'll put you in there by force. If inanimate remains like you can go scooting 'round in this incendiary manner, we'll soon have the cemeteries unloading and the unnumbered dead crowding out and wanting to

vote. Then Jones called the undertaker, who knocked shuckers down with a cane and held him until he explained, and until the scared undertaker recovered his equanimity which left him at the bare suggestion that the corpse was loose. Then the funeral moved on to the cemetery and Jones went home, while Shuckers proceeded to an alderman's office to swearout a warrant against the undertaker for assault and battery. He intends to change his name to Duykinck.—Danbury News.

THE huge, drastic, griping, sickening pills, constructed of crude, coarse and bulky ingre dicats, are fast being superseded by Dr. Pierce's Pleasant Purgative Pellets, or Sugar-Costed, Concentrated Root and Herbal Juice, Anti-Bilious Granules—the "Little Giant" Catharticor Multum in Parco Physic. Modern Chemical Science enables Dr. Pierce to extract from the juices of the most valuable roots and herbs their active medicinal principles, which, when worked into little Pellets or Granules, scarcely larger than mustard seed, renders each little Pellet as active and rowerful as a large little Pellet as active and rowerful as a large little Pellet as active and rowerful as a large little Pellet as active and rowerful as a large little Pellet as active and rowerful as a large little Pellet as active and rowerful as a large little Pellet as active and rowerful as a large little Pellet as active and rowerful as a large little Pellet as active and rowerful as a large little Pellet as active and large little Pellet as active powerful as a large pill, while they are much more palatable and pleasant in effect.

Dr. Ira A. Thayer, of Baconsburg, Ohlo, writes: "I regard your Pellets as the best remedy for the conditions for which you prescribe them of any thing I have ever used, so mild and certain is effect, and leaving the bowels in an excellent condition. It seems to me they must take the place of all other ca-thartic plils and medicines."

Lyon & Macomber, druggists, Vermillion, D.T., say: "We think they are going to sell like hot cakes as soon as people get acquainted with them and will spoil the pill trade, as those that have used them like them much batter than large pills."

IT RUNS LIKE A PRAIRIE FIRE!-DR. WALKER'S VINEGAR BITTERS runs like a prairie fire. The fame of the Temperance Tonic is, however, but poorly exemplified by this figure of speech; for a prairie fire runs only in one direction, whereas the reputation of the Bitters spreads toward all points of the compass. There is not a square mile of inhabited territory in the United States, where this meritorious preparation is not appreciated. If any theoretical gentleman thinks he is prepared to show that there is "nothing in it," we advise him to go to the Prairie States, in the Mississippi Valley to the deltas of the Southern rivers, to New England, in fact, anywhere within the limits of "Uncle Sam's real estate," and ventilate his views. By so doing he can raise a heartier and Corn Bread .- Add to a quart of butter- more general laugh than has ever yet shaken the sides of an intelligent people, Persons who have been cured can't help laughing at other people, who tell them that the medicine which saved their lives is a failure.

> The Prettiest Woman in New York, Miss K-, well known in our fashionable society for her distingue appearance and beautiful complexion, was once a sellow, rough-skinned girl, chagrined at her red, freckled face. She pitched into Hagan's Magnolia Balm, and is now as pretty in complexion as she is charming in manners. This article overcomes freekies, tan, sallowness, moth-patches, ring-marks, etc., and Kathairon to make the hair plentiful, luxuriant, soft and delicate, have no rivals. The Kathairon prevents the hair from turning gray, eradicates dandruff, and is the best and cheapest dressing in the world.

> Damned by Faint Praise.-Jas. Beekman elergyman, of New York, was recently badly kicked by a horse, and was speedily cured by using the celebrated Mexican Mustang Liniment. When the proprictor asked him for a certificate he replied that he "considered it a remarkable article, but it wouldn't answer for him to indorse a remedy in print." Here's sistency. But we didn't kick him, as the horse did. The worldknows that for Rheumatism, Bruises, Swellings, Spavin, Scratches, Inflammation, Lameness, or any firsh, bone or muscle ailment upon man or animal, there is nothing like the Mustang Liniment, It costs but 50 cts. and \$1.00 per bottle, and should be in every family. It is wrapped in a fine steel-plate label, and signed "G. W. Westbrook, Chemist."

> Tonic and Recuperant Plantation Bitters.-The constantly-increasing patronage which it receives has, it is true, excited the petty envy of certain splenetic advertisers of pinchbeck paraceas, who hope to make a market for their own stagnam, watery wares by decrying all spirituous medicinal preparations. But the public can stomach neither their arguments nor their potations, and consequently reject these very weak imitations of the enemy as entirely too thin.

egar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. In their treatment, a purgative, exerting a powerful influence upon these various or-gans, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the darkcolored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.
